INTRODUCING THE KAY® POWER PAD

The KAY Power Pad eliminates stubborn stains on walls, doors, countertops and more. It works quickly and is gentler on surfaces than harsh, abrasive cleaners and scrub pads. The scrubbing action of the pad removes stains, and its blue durability strip is designed to improve performance and prolong use.

Use instructions: Simply wet pad with water or spray with KAY® SolidSense™ APSC Solution and squeeze out excess water. Use moistened pad to gently buff away stains. Thoroughly squeeze out a clean, sanitizer-soaked towel from the clean towel bucket and wipe surface. Do not leave any standing liquid. Wipe dry with a clean paper towel. Rinse the KAY Power Pad with clean water, squeeze dry and store.

EXAMPLE APPLICATIONS:
- Counters
- Baseboards
- Tabletops
- Exterior furniture
- Graphics and walls (except wallpaper)
- Interior seating

EFFECTIVELY REMOVES:
- Juice, coffee and other beverage stains
- Mustard
- Ink
- Scuff marks
- Permanent marker
- Crayon

Interior Seating & Décor Cleaning Procedures

Upholstery Cleaning (Stubborn Soil and Stain Removal):
1. For stubborn soils, spray lightly with SolidSense APSC Solution and gently buff with the KAY Power Pad.
2. Follow daily cleaning procedure.

Corian® Cleaning:
1. Spray the KAY Power Pad with Glass & Multi-Surface Cleaner Solution.
2. Use moist section of pad to gently buff away stains on Corian surface.
3. For stubborn stains, spray the KAY Power Pad with KAY® Graffiti Remover. Use the moistened pad to gently buff away stains.
4. Once stains are removed, follow normal front counter and tabletop cleaning procedures. Remember to wipe all food contact surfaces with a clean, sanitizer-soaked towel from the clean towel bucket and spray with Sanitizer Solution. Allow to air dry.
5. Wash and rinse the KAY Power Pad at 3-compartment sink and allow to air dry. Pad may be used several times before discarding.

NOTE: Do not saturate any materials in the lobby or leave any standing liquid. Wipe area dry with a clean paper towel. These procedures are based on testing various décor samples and are subject to change as testing continues and new samples are evaluated. Do not use the KAY Power Pad on food preparation equipment, stainless steel or on heavily soiled, greasy surfaces. Always test in an inconspicuous area prior to full-surface cleaning and when using specialty products such as Graffiti Remover.

CAUTION: Do not use unapproved chlorinated products as these may cause permanent damage to materials.

**INTERIOR DÉCOR**

**IMPORTANT:** Do not use unapproved chlorinated products as these can cause permanent damage to materials in the lobby.

**Supplies needed:**
- KAY® SolidSense™ All Purpose Super Concentrate (APSC)
- KAY® QSR Glass & Multi-Surface Cleaner
- KAY® Stainless Cleaner & Polish
- Clean, Sanitizer-Soaked Towels from the Clean Towel Bucket

---

**WALLS DAILY**

1. Wipe walls with a clean, sanitizer-soaked towel to remove soil.

2. For stubborn soils, spray soiled area lightly with Glass & Multi-Surface Cleaner Solution and wipe with a clean, sanitizer-soaked towel.

   **NOTE:** Textured wall papers may require a scrub brush or nonabrasive pad to remove imbedded soils.

---

**WALLS MONTHLY**

1. Walls should be thoroughly washed using a bucket of APSC Solution and clean, sanitizer-soaked towels.

2. Rinse well and dry thoroughly.

---

**SOFFITS, DIVIDERS, DECORATIVE ELEMENTS**

1. Wipe area with a clean, sanitizer-soaked towel to remove soil.

2. For stubborn soils, spray soiled area lightly with Glass & Multi-Surface Cleaner Solution and wipe with a clean, sanitizer-soaked towel.

3. As needed, polish metal/chrome surfaces with Stainless Cleaner & Polish and a dry paper towel to restore shine and remove fingerprints.

---

**LIGHTING/WINDOW TREATMENTS**

1. Dust light fixtures and window treatments in dining area daily.

2. Spray a clean, sanitizer-soaked towel with Glass & Multi-Surface Cleaner Solution. Wipe light fixtures and window treatments at least once a week.
**UPHOLSTERY**

1. Throughout the day, thoroughly squeeze out a clean, sanitizer-soaked towel from the clean towel bucket and wipe surface. Wipe dry with a clean paper towel. **NOTE:** Do not saturate any materials in the lobby or leave any standing liquid.

2. For stubborn soils, spray seats lightly with APSC Solution and scrub clean with a nonabrasive pad.

3. If pad or towel does not remove soil, use moistened Power Pad to gently buff away stain.

**TABLES / COUNTERTOPS**

1. Frequently throughout the day, wipe with a clean, sanitizer-soaked towel. **NOTE:** Immediately wipe up food and drink spills with a clean, sanitizer-soaked towel to prevent staining.

2. For stubborn soils, spray tables lightly with Glass & Multi-Surface Cleaner Solution and scrub clean with a nonabrasive pad.

3. For greasy soils, spray soiled area with APSC Solution and scrub clean with a nonabrasive pad. **NOTE:** Do not saturate any materials in the lobby.

**AT CLOSING**

1. Tables and seats should be cleaned and sanitized.

2. As needed, polish metal/chrome surfaces with Stainless Cleaner & Polish and a dry paper towel to restore shine and remove fingerprints.

---

**Supplies needed:**

- KAY® SolidSense™ All Purpose Super Concentrate (APSC)
- KAY® QSR Glass & Multi-Surface Cleaner
- Clean, Sanitizer-Soaked Towels from the Clean Towel Bucket
- KAY® Stainless Cleaner & Polish
- KAY® Power Pad
- KAY® Graffiti Remover
- Nonabrasive Pad

**IMPORTANT:** Do not use unapproved chlorinated products as these can cause permanent damage to materials in the lobby. When using specialty products such as Graffiti Remover, be sure to test in an inconspicuous area before using.
• Spray a KAY Power Pad with Glass & Multi-Surface Cleaner Solution.
• For removal of permanent marker, ink or other graffiti, spray a KAY Power Pad with Graffiti Remover.

2

• Use moist section of pad to gently buff stains away from surface.

3

• Once stains are removed, follow front counter and tabletop cleaning procedures. Remember to finish by wiping all food contact surfaces with a sanitizer-soaked towel and spray with Sanitizer Solution. Allow to air dry.

4

• Rinse KAY Power Pad at 3-compartment sink. Gently wring out excess moisture and allow to air dry. Pad may be used several times before discarding.

NOTE: Always test KAY Power Pad in an inconspicuous area before using.
FLOORS
1. Sweep the floor.
2. Mop up spills immediately.
3. Damp mop the floor with clean, hot SolidSense Floor Care Solution.
4. Weekly at close, liberally apply SolidSense Floor Care Solution to the floor and deck brush in small sections. Mop up any remaining Floor Care Solution.

UPHOLSTERY (DAILY)
1. Throughout the day, thoroughly squeeze out a clean, sanitizer-soaked towel from the clean towel bucket and wipe surface to remove crumbs. Wipe dry with a clean paper towel.
2. For stubborn soils, spray lightly with SolidSense APSC Solution and a clean, sanitizer-soaked towel from the clean towel bucket or a nonabrasive pad.

UPHOLSTERY (STUBBORN SOIL AND STAIN REMOVAL)
1. For lightly greasy or stubborn soils, spray lightly with SolidSense APSC Solution and gently buff with the KAY Power Pad.
2. Follow daily cleaning procedure.

ALL OTHER DÉCOR MATERIALS
1. Wipe with a clean, sanitizer-soaked towel from the clean towel bucket as necessary to remove soil. For stubborn stains, spray with Glass & Multi-Surface Cleaner Solution and wipe with a clean, sanitizer-soaked towel from the clean towel bucket.

WALLS
1. In addition to daily spot cleaning, walls should be thoroughly washed monthly using a bucket of SolidSense APSC Solution and clean, sanitizer-soaked towels from the clean towel bucket. Rinse well and allow to air dry.

LIGHTING/WINDOW TREATMENTS
1. Daily – dust light fixtures and window treatments in dining area using a feather duster.
2. Weekly – wipe light fixtures and window treatments with Glass & Multi-Surface Cleaner Solution and a clean, sanitizer-soaked towel from the clean towel bucket.

CORIAN® CLEANING
NOTE: This procedure is recommended to remove stains on Corian from mustard, ketchup, permanent markers and pens. For stubborn stain removal only. Not recommended for daily use. Always test prior to use.
1. Spray KAY Power Pad with Glass & Multi-Surface Cleaner Solution.
2. Use moist section of pad to gently buff away stains on Corian surface.
3. For stubborn stains, spray the Power Pad with Graffiti Remover. Use the moistened pad to gently buff away stains.
4. Once stains are removed, follow normal front counter and tabletop cleaning procedures. Remember to wipe all food contact surfaces with a clean, sanitizer-soaked towel from the clean towel bucket and spray with Sanitizer Solution. Allow to air dry.
5. Wash and rinse Power Pad at 3-compartment sink and allow to air dry. Pad may be used several times before discarding.

NOTE: Do not saturate any materials in the lobby or leave any standing liquid. Wipe dry with a clean paper towel.
